```java
class PatternPrinting {
    public static void main(String[] args) {
        System.out.println( "*");
        System.out.println("**");
        System.out.println("***");
        System.out.println("****");
        System.out.println("*****");

    }

}
```
